SEASIDE RENEWAL: ACRE™ REFRESHES A MARBLEHEAD WATERFRONT HOME

Meet this dazzling, newly renovated seaside home in the picturesque waterfront town of Marblehead, MA.

ACRE Shiplap Siding and Trim, painted a crisp, clean white, now graces the home's façade, giving it a fresh, modern touch while maintaining the nautical charm of the New England coastline.

MARBLEHEAD CASE STUDY

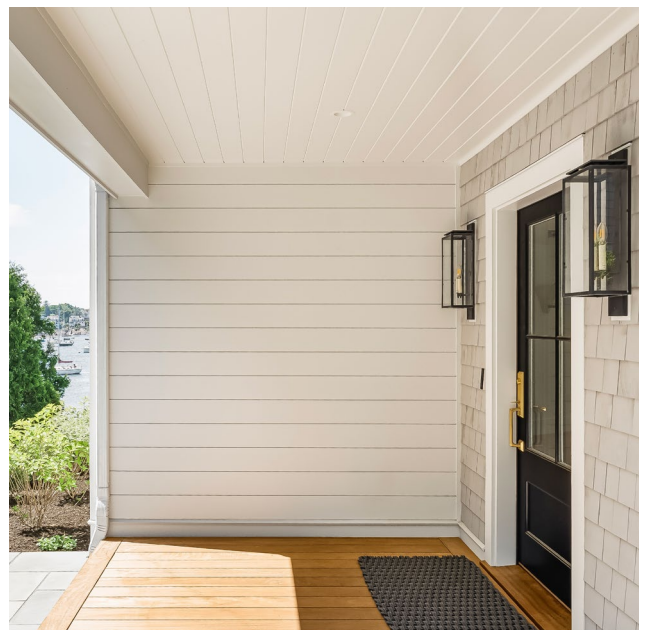

Location	Marblehead, Massachusetts
Product	ACRE Shiplap Siding and Trim Boards
Project Manager	Dave Malmquist
Contractor	Malmquist Builders
Finish	Benjamin Moore Simply White (Learn More)

PROJECT OVERVIEW

The choice of ACRE goes beyond aesthetics—its durability and resistance to water, weather, and rot make it the perfect solution for withstanding the challenges of a waterfront environment.

The subtle blend of horizontal ACRE shiplap and traditional shingles creates a harmonious balance between traditional and modern. The home's doors and windows are framed with painted white ACRE trim, creating clean lines that complement the bright siding. By extending ACRE shiplap boards onto the deck wrap, the builder achieved a seamless transition that brings unity to the entire exterior.
