

SETTLE INTO A WORLD BEYOND WOOD

INTRODUCING THE FERNWOOD
Adirondack Chair Collection

BUILT WITH ACRE™ FROM MODERN-MILL

The Classics, Reimagined

Welcome to Modern Millwork—a new collection of garden furniture made with ACRE™ from Modern Mill.

The Modern Millwork line was inspired by a desire to showcase the functionality of ACRE, a revolutionary material made from upcycled rice hulls. ACRE is sustainability without compromise. It's water-, weather-, rot and pest-resistant. ACRE has all the warmth of wood with none of the downsides.

THE FERNWOOD CHAIR

Our design for The Fernwood reimagines the American garden chair, while retaining the backyard simplicity and comfort of the traditional Adirondack. Each chair carries the name of Modern Mill's hometown in Fernwood, Mississippi, a nod to the community that surrounds and inspires us, and a tribute to the hardworking team who makes each ACRE board with care.

OUR OTHER COLLECTIONS

Modern Mill offers more designs for commission or private label, inspired by Modern, Scandinavian and Minimalist designs and named for Mississippi communities.

The Fernwood

The Fernwood is our take on the classic Adirondack chair. It's built from ACRE, an alternative that's virtually indistinguishable from wood.

This timeless, relaxed chair is a testament to its functionality.

Made from upcycled rice husks, in a zero-waste manufacturing environment. ACRE is 100% tree-free while offering the durability and beauty of wood with none of its downsides.

ACRE protects our forests as surely as it beautifies our living environments. It holds up to all kinds of weather. It's easy to clean with soap and water.

The Fernwood is sold and delivered in its natural color. It's gorgeous as is, or you can paint or stain it to make your outdoor space feel just like home.

*This Fernwood chair was stained in walnut.

Live Better with Furniture Made From ACRE

UNMATCHED DURABILITY

- Resistant to water, weather, pests and rot
- UV- and fire-resistant
- No fading, splintering, cracking or warping
- No special maintenance or cleaning methods needed

PRODUCTION SPECS

- Flat packed for easy shipping
- Partial assembly required

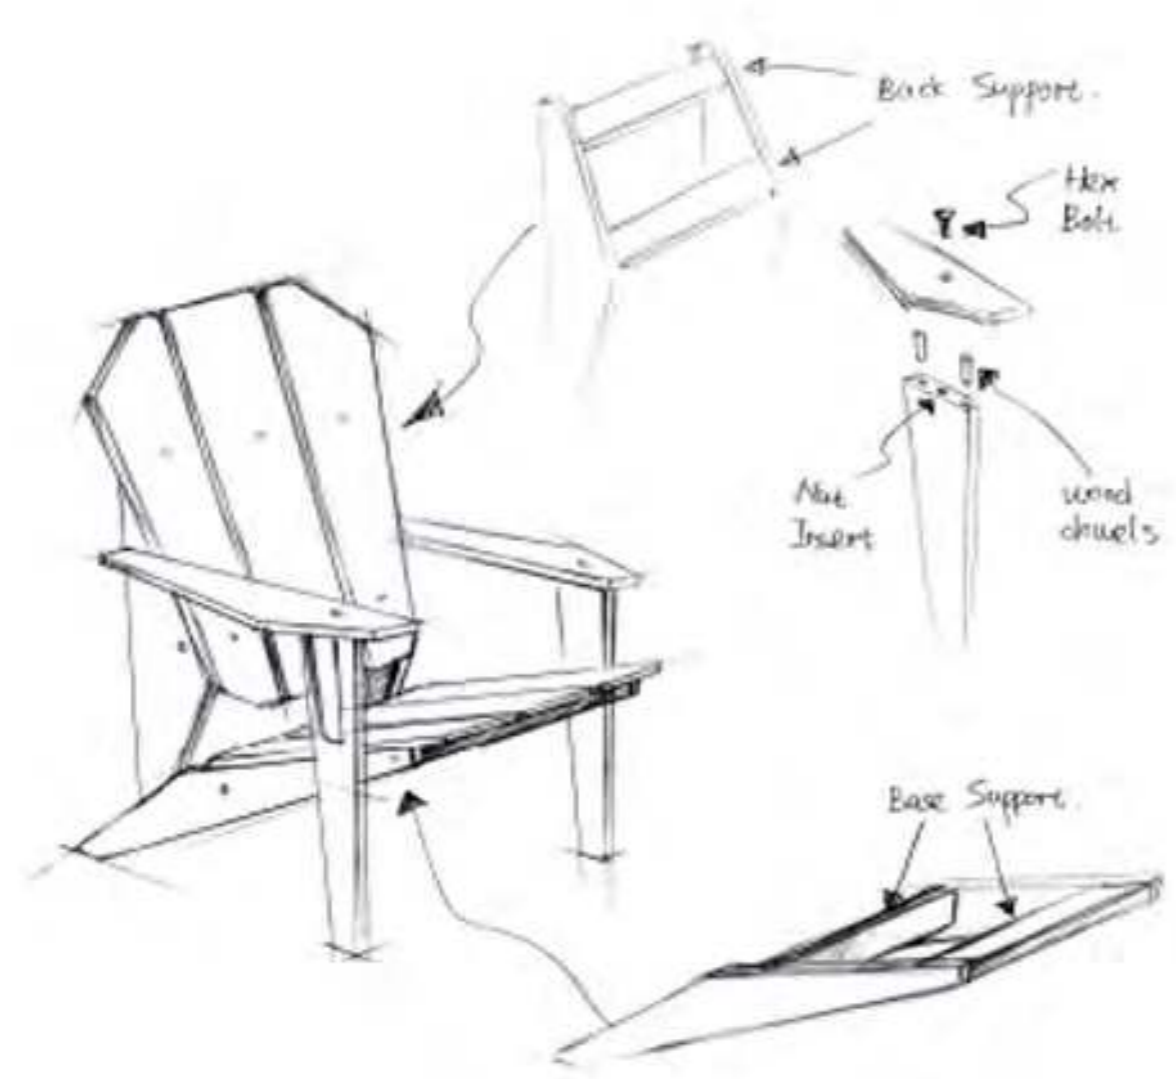

SUSTAINABILITY

- Made in the U.S.A.
- 100% tree-free
- Upcycled natural fibers from discarded rice hulls, a rapidly renewable resource
- Free of phenol, formaldehyde and adhesives
- Zero-waste manufacturing
- 100% recyclable

NATURAL BEAUTY

- Warm look and feel of wood
- Natural-looking grain
- Low heat retention
- Finish at home with your choice of water-based stains or paints

The Shelby

Rounded shapes. Soft and friendly with the kids.

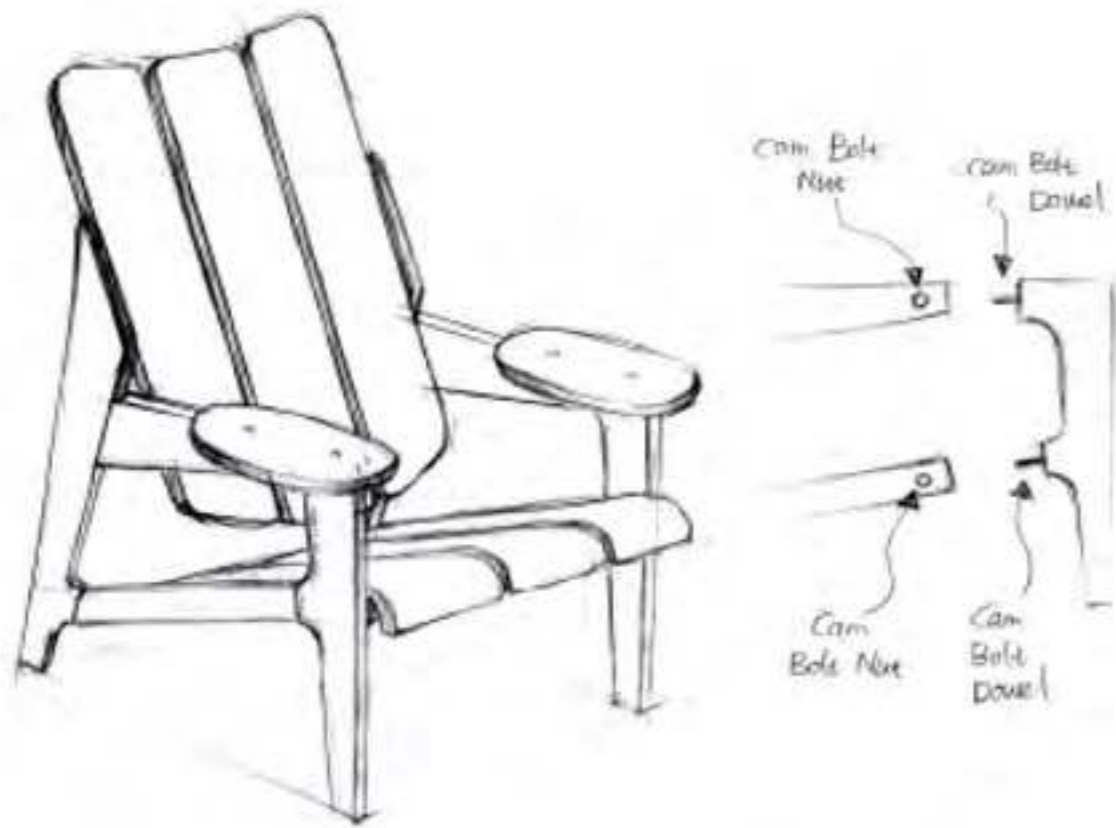

The Magnolia

Geometric shapes. Modern sculpture in the garden.

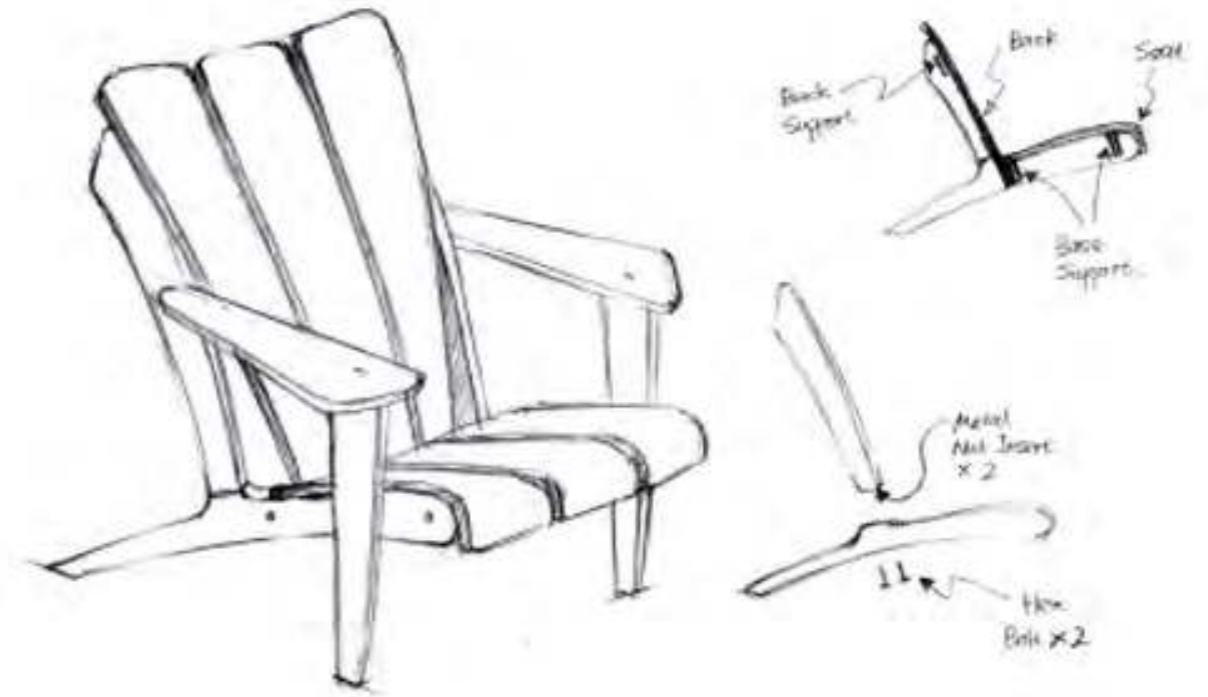

The Madison

Typical look in Scandinavian designs. A hint of pebble shape.

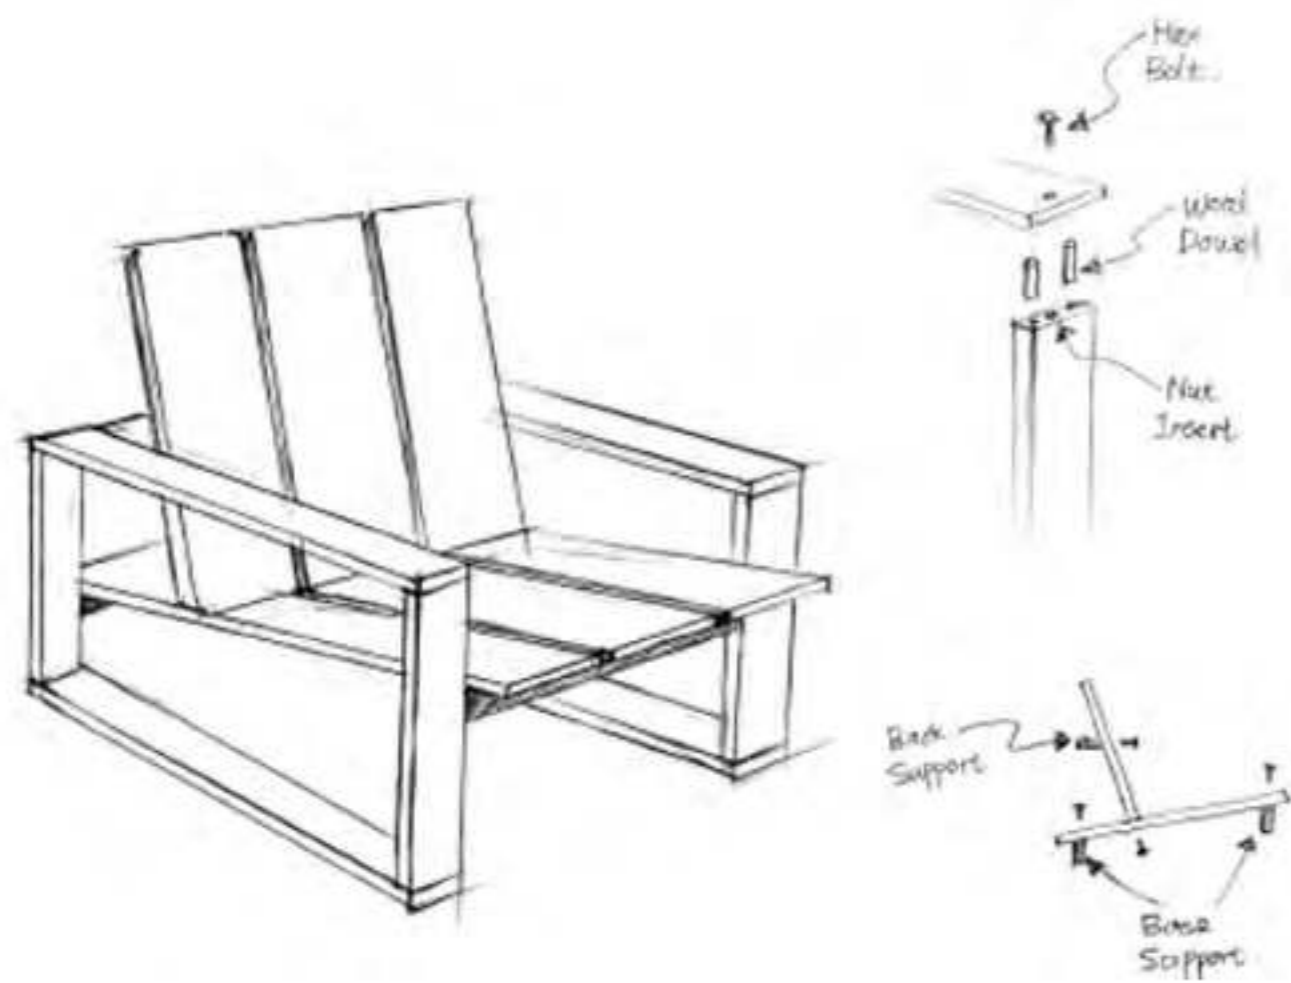

The Panola

Simple yet organic lines. Simplified structure.

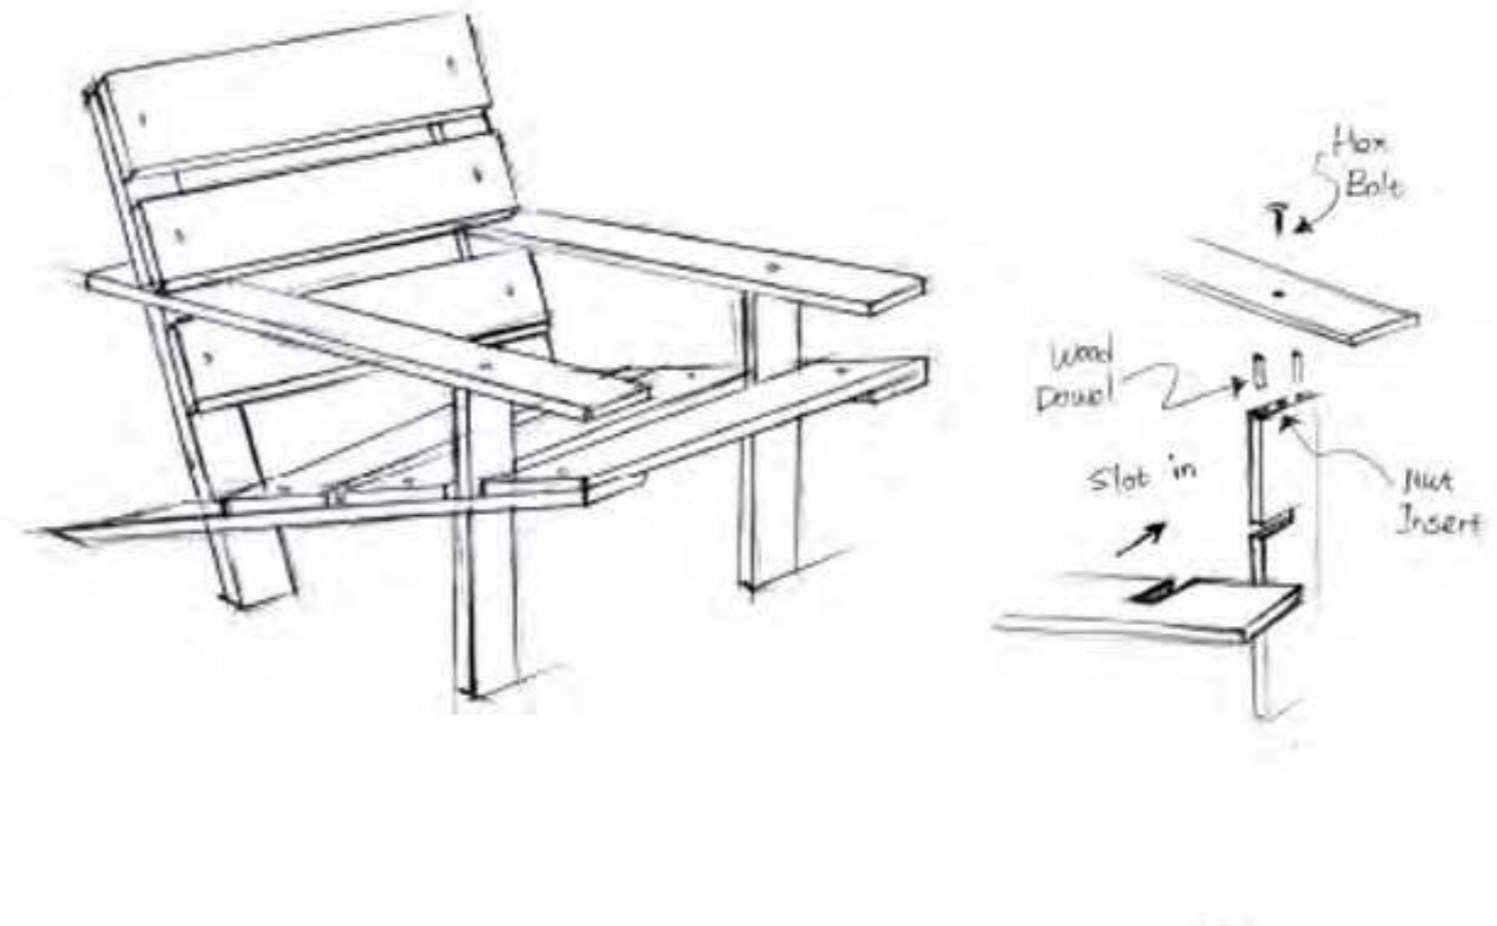

The Petal

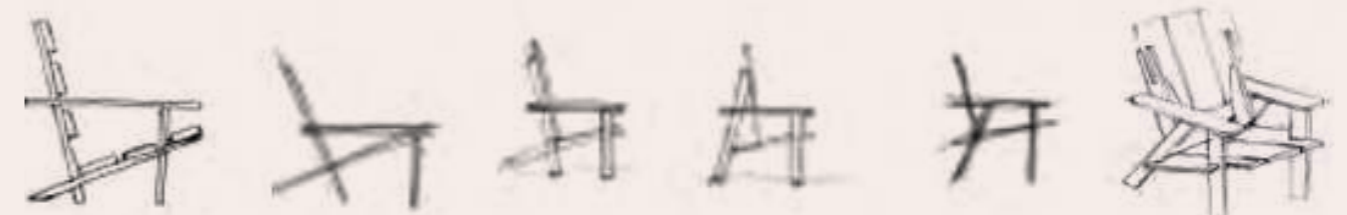

Basic function fulfilled by simple panels.

The Amory

All panels come in the same width. Slotting brings more fun to DIY.

Flat-Packed, Easy to Assemble & Drop Ship

Our chair collection comes flat packed for easy storage, transportation and shipping.

Comes partially assembled and generally can be assembled with one adult.

THIS IS ACRE.
An entirely new way to live.
From Modern Mill.
